Application number: 301038204
Programme applied for: MSc in Engineering Management

30 January 2023

Dear Miss Patil

Thank you for your application to study for the MSc in Engineering Management. We are happy to confirm that the selectors have assessed your application and have decided to make you an offer of a place to study at the University of York.

Your offer letter containing further details about your offer (including any conditions to be met) is currently available for viewing (and printing if necessary) via the [You@York](#) applicant portal.

You should read your offer letter in conjunction with the attached 'Admissions Policy' and the 'Terms and Conditions Relating to Your Offer' document.

For more information about the current COVID-19 situation and what we are doing to support you, please refer to our [Covid-19 information](#).

Responding to your offer: Please let us know as soon as possible if you would like to accept or decline your offer. To notify us of your response please login to the You@York applicant portal (www.york.ac.uk/you-at-york), go to the 'Your Applications' section, and select the 'Respond to this offer' link within the 'Application Status' tab.

Applicants with a disability, long term health condition or learning difficulty: If you have any additional support requirements to help you complete your studies at York, the University is generally able to assist you and we would encourage you to contact our Disability Services team as soon as possible. Advanced disclosure allows the University to better understand your needs and to arrange appropriate support and/or make reasonable adjustments where appropriate. For further information please visit our [Disability Support](#) web pages.

As highlighted in our Admissions Policy, certain disabilities may preclude entry to certain programmes, and where the adjustments needed to provide the required support are not considered reasonable, we will undertake to support you in considering an alternative programme where appropriate.

Accommodation: For information about accommodation options, colleges, and costs please see our [Postgraduate accommodation web page](#).

For Accommodation Terms and Conditions and Residential payment information please see our [contract, rent and payments web page](#).

Student Visa advice: As an international student, you may need a Student Visa (formerly the Tier 4 Visa) to take up your place at York. Please consult the [Immigration advice](#) web pages for advice on which student visa you require.

If your offer included an English language condition, please also note that only English language tests taken in the last two and a half years relevant to your intended start date are valid for entrance purposes.

In accordance with UK immigration law, if you are applying for a new visa inside the UK, you must apply for the new visa before the course start date, or you will be required to leave the UK and defer your studies.

If you are applying for a visa within a different immigration category, e.g. Standard Visitor visa or dependant, you will be required to provide your visa when you enrol at the University. Further information is available on our [Immigration advice](#) web pages.

Confirmation of Acceptance for Studies (CAS):

Deposits: You may need to pay a £2,000 deposit as part of the CAS issuance process. For further information please see the [Tuition Fee Deposits Policy](#). If you require a student visa to study in the UK, you will need a Confirmation of Acceptance for Studies (CAS) in order to apply for your student visa. You can request your CAS after you have

received, and firmly accepted your offer (unconditional or conditional). We cannot issue your CAS until your offer becomes unconditional and you have made your deposit payment if applicable.

We strongly encourage you to request your CAS as early as possible (from late April onwards). If you are applying for your CAS close to the request deadline this does reduce the amount of time you have by which to book such things as your visa appointment. It is important that you understand the risks involved as the University is not able to control or influence the process through which individual visas are issued by the UKVI and cannot guarantee that a visa will be issued by the last date of arrival for your chosen course.

These delays, which are beyond our control, may mean that you incur additional costs or you are unable to arrive in the UK by the last date of arrival for your chosen course. We strongly advise that you do not book a flight until you have confirmation that your visa has been granted. Further information is available on our [How to apply for a visa from outside the UK](#) web pages.

As part of your CAS request you will also be required to read and accept the [Student Visa Terms and Conditions](#).

Immigration Health Surcharge: Visas for more than six months include an Immigration Health Surcharge. Paying this will mean that you are entitled to receive certain free health services from the National Health Service (NHS) while you are in the UK, but please note that this is not private medical insurance. Further information is available at: [How to apply for a visa from outside the UK](#).

The status of your You@York account is:

Your username is: jrs607

Your password is: Already setup and currently known only to you

Your account status is: setup with applicant Privileges

Before logging in to the portal for the first time, you must change your initial password via: [You@York Identity Manager](#)

The You@York applicant portal is full of further helpful information, which may assist in answering any additional queries you may have.

Yours sincerely,

Postgraduate Admissions Team
